OFDP Course Description

Welcome to the **Oxygen Forensic® Data Presentation** training course!

This one-day instructor-led training event is geared toward students that have a working familiarity with **Oxygen Forensic® Detective.**

This instructor-led training event will take you from moment of device extraction all the way through to the presentation of the findings. Students will learn the process of maintaining forensically sound evidence, producing professional and accurate reports, supplying supporting documentation, and preparedness to deliver your findings in a more understandable way to the end user whether it is a manager, client, or a jury.

Oxygen Forensic® Detective is the flagship technology of Oxygen Forensics and a world-class suite of tools that allow an investigator to ingest mobile device data from industry standard extraction formats into a database architecture for single device analysis or multi-device analytics.

Additional in-depth training available for Oxygen Forensic® Detective includes:

- OFDA – Oxygen Forensic® Drone Analysis   (1-day, instructor-led)
- OFCE – Oxygen Forensic® Cloud Extraction   (1-day, instructor-led)
- OFXiB – Oxygen Forensic® Extraction in a Box   (3-day, instructor-led)
- OFAA – Oxygen Forensic® Advanced Analysis   (3-day, instructor-led)
- OFBC – Oxygen Forensic® Boot Camp   (3-day, instructor-led)
- OFDV – Oxygen Forensic® Detective Viewer   (1-day, on-demand)
- OFAT – Oxygen Forensic® Agent Triage   (1-day, instructor-led)
- OFKC – Oxygen Forensic® KeyScout Collection   (1-day, instructor-led)
- OFAI – Oxygen Forensic® Analytic Investigations   (1-day, instructor-led)
- OFTP – Oxygen Forensic® Data Presentation   (1-day, instructor-led)

All courses can be accessed buffet-style at a fixed price with a Training pass.

Course Modules

<u>Install and Support</u>

This module educates end-users about their customer experience with Oxygen Forensics while learning to install the latest Oxygen Forensic® Detective (OFD) products and mobile device drivers. Students will learn how to access their unique customer portal and download any software components needed.

<u>Data Integrity</u>

This module will go over the fundamentals of maintaining forensically sound evidence and how to validate findings. Students will learn the workflow and processes surrounding the forensics of extraction, original images, working copies, hash values, supporting evidence, and reporting.

<u>Reporting</u>

This reporting wizard module demonstrates how to export data into one of many output formats that can include graphics, hyperlinks, and date | time filters. Reports can be modified to resemble corporate or agency logos and headers | footers while also being saved as templates for later use. The OFD report wizard specializes in reducing the unwanted noise data around items of importance. Specificity becomes key when data is organized with the report wizard's abilities.

Thank you for the interest in Oxygen Forensic® Training. Hope to see you in class soon!
